OFFICIAL PRESENTATION PLAN

What is Voomo?

Voomo is the most innovative smart contract ever, what makes it unique are the **Multiple forms of income** it has , you can earn from four different systems investing just **0.1 Eth**. The system is developed in the Ethereum Blockchain therefore Voomo cannot be subject to changes and violations by hackers or somebody else. The program is open source and it can be read from whoever want to verify the integrity of the project. Voomo has the aim of making possible an economic growth directly proportional to the given commitment and also allowing those who cannot create their own structure to be part of a system which permit them to receive **Spillovers** and earn **without referring** in completely automatic way.

Smart Contract Explained

A smart contract is a self-executing contract with the terms of the agreement between buyer and seller being directly written into lines of code. The code and the agreements contained therein exist across a distributed, decentralized blockchain network. The code controls the execution, and transactions are trackable and irreversible. Smart contracts permit trusted transactions and agreements to be carried out among disparate, anonymous parties without the need for a central authority, legal system, or external enforcement mechanism.

How Can I Register?

Join Voomo it's very **simple**, you need to create an Ethereum wallet by one of these apps Coinbase wallet, Metamask and Trust wallet easy to download in the appropriate app stores or browsers. After creating your own wallet you need to go in the log in/register page, subsequently confirm the transaction on your Ethereum wallet and your signing up will be done.

How The **Multiple Earnings** Works?

Voomo has four forms of income which work concurrently. Before the explanation you need to know that the system divided the investment of **0.1 Eth** in four equal parts, the first go to the **Manual X3**, the second to the **Manual X4**, the third to the **Auto X3** and the fourth to the **Auto X4**.

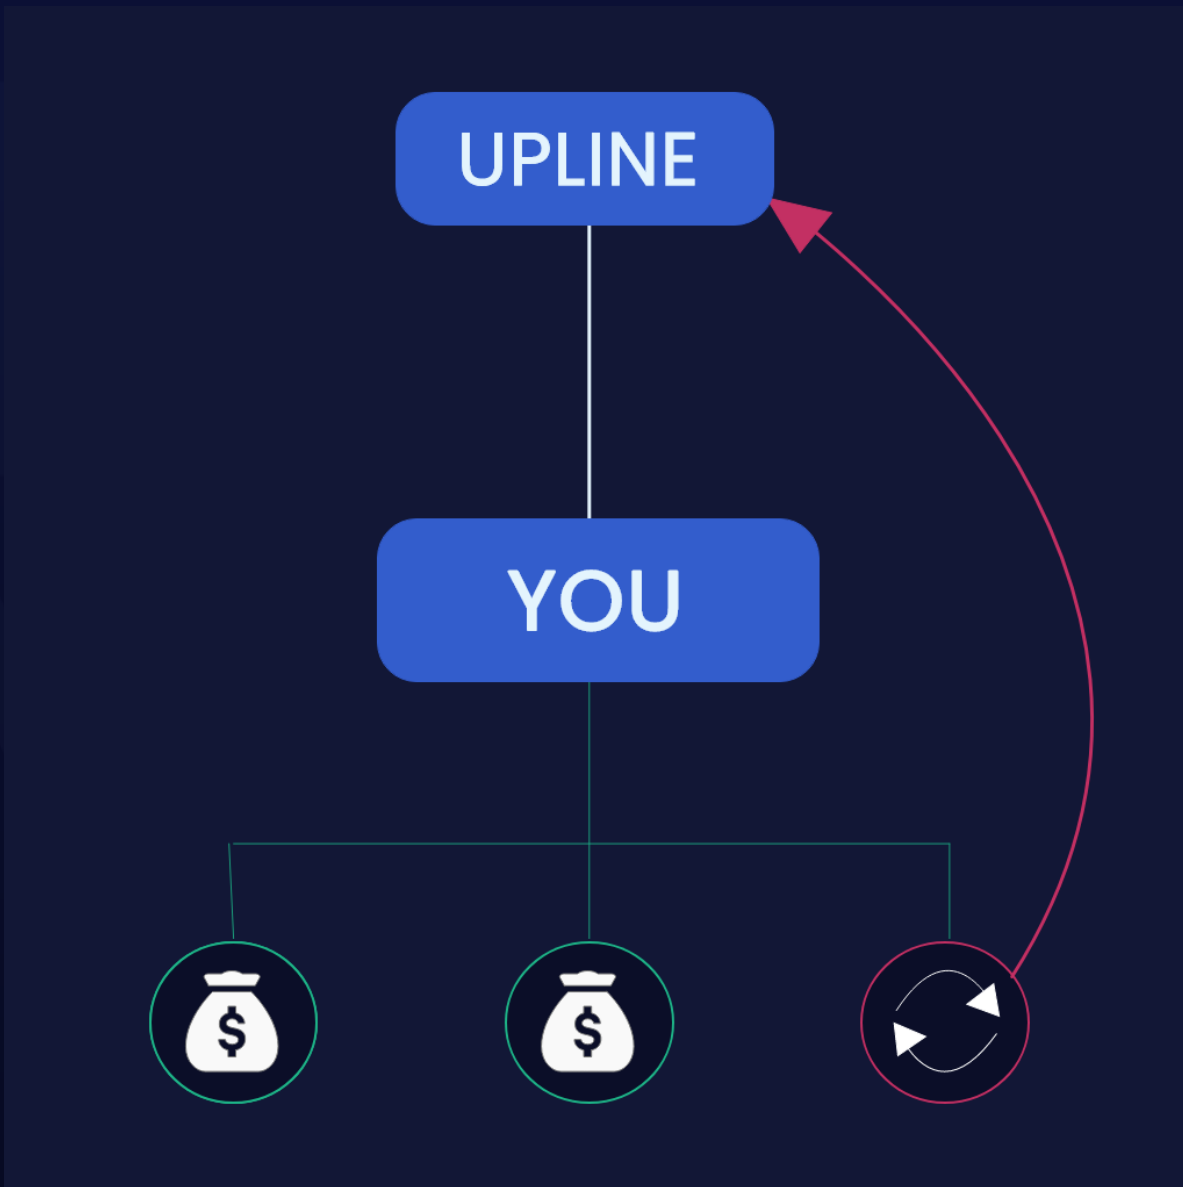

EARNINGS

X3 MANUAL

This system allows you to create an own structure based on your ability to bring referrals with your personal link [pay attention each referral brought is distributed in all the four systems in Voomo], the matrix permit you to insert just three referrals on your first and only line, as well :“personal line” these users will permit you to increase your level and your earnings determined by the earnings table. How the level up and the earnings works? Easy, two of these three users permit you to receive directly into your wallet the earnings of the corresponding level in which you are, the third one enable your account to renew the amount of the current level, which create a passive income for your uplines, of course you will reach this passive income too thanks to your downlines. Another feature of the “ **MANUAL X3** ” is the possibility to buy in chronological order the levels as you want.

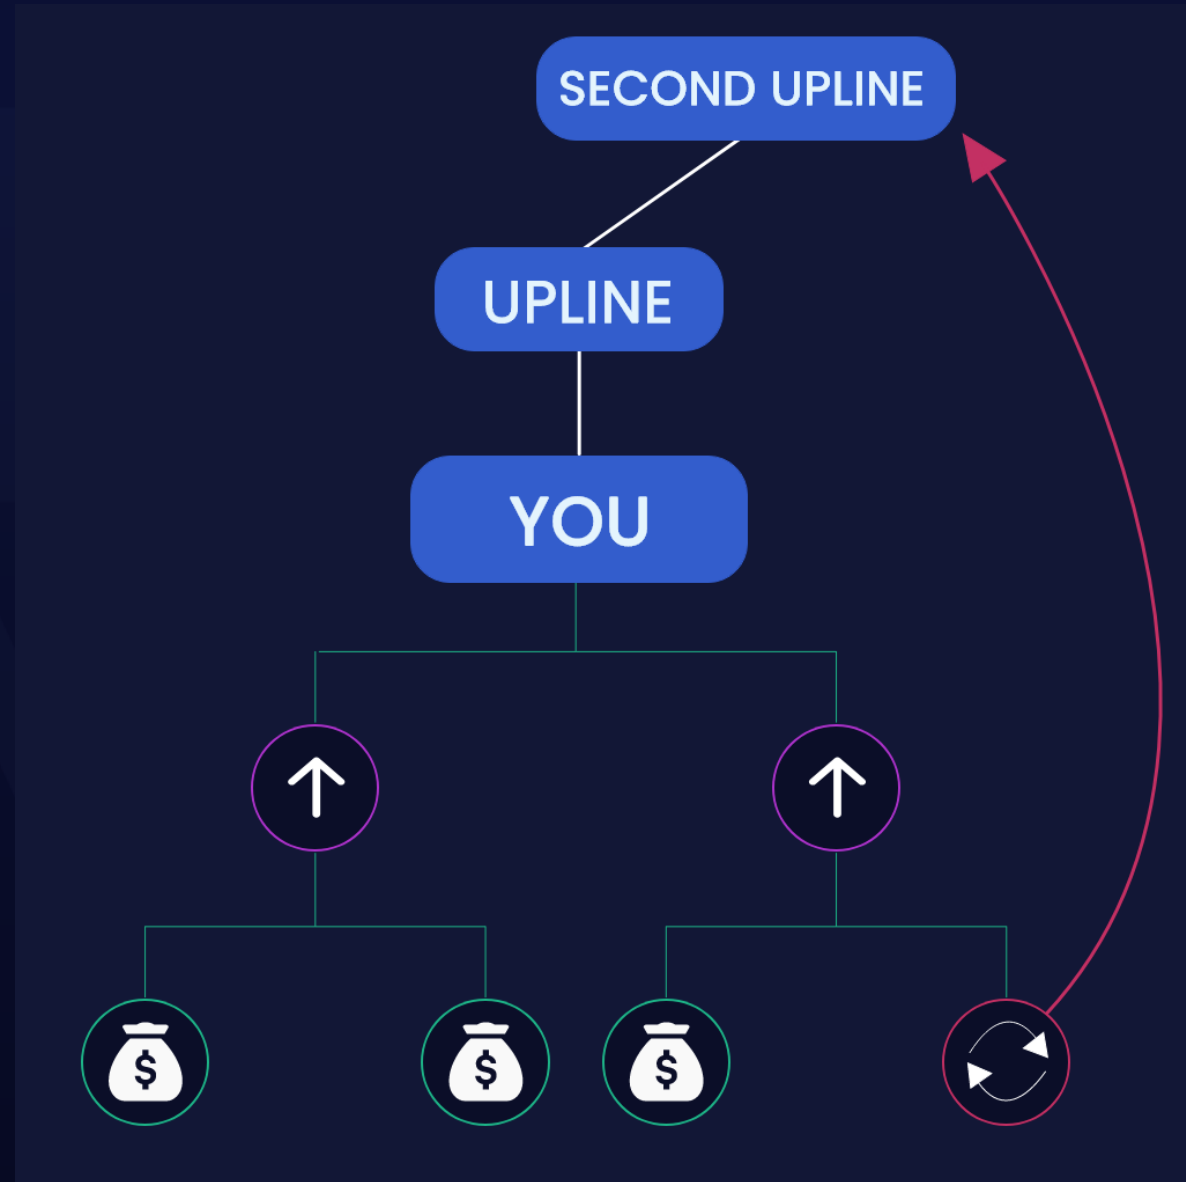

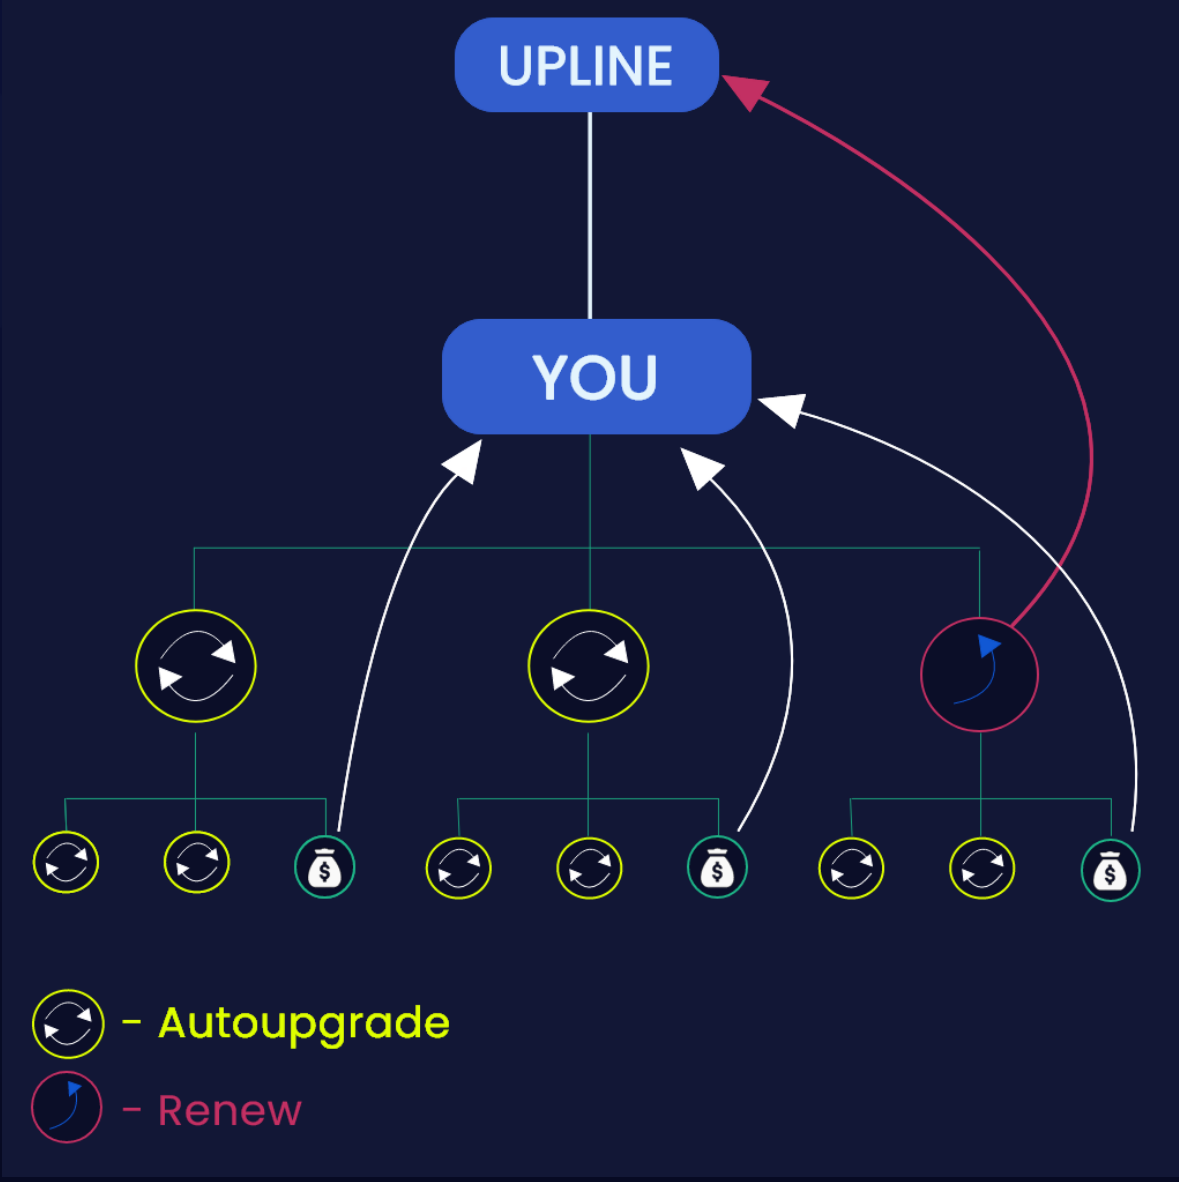

EARNINGS

X4 MANUAL

In this matrix you need to bring just two referrals which are placed in your first line, these two referrals will lead in turn other two referrals each for themselves, the latest will be for you the second line, how the level up and earnings work? Your first two referrals will pay your upline and in the second line you will have four referrals, three of them will give to you the **earnings** directly in your wallet, the fourth and last one will be the renew which go to your second upline to make possible the passive income, you will benefit of this passive income too thanks to your downlines.
